Yes

I looked over both MMs and noted so in my last mssg.

Non-Responsive Due to Agreement

Subject: FW: State of Oregon's submittal for CZARA Notice of Intent

All,

Attached is Oregon's newest submittal to NOAA & EPA, and the last that can be considered under the now-closed comment period for our Notice of Intent to disapprove Oregon's CNPCP. It contains complete information intended to address all conditions (Add'l MMs for Forestry, Urban New Dvpt & OSDS inspections), as well as an update designed to strengthen the rationale for approving OR's Ag MMs--since we asked for public comment on that and since NWEA has been particularly critical of OR's Ag program's ability to protect water quality.

Your respective reviews of the relevant sections of this submittal will need to be a top priority, given the tight settlement agreement deadline for a final decision on the full approvability of OR's CNPCP. In addition, we have received numerous public comments, including a very extensive set of comments from NWEA, which will require some of your attention, so be on the lookout for meeting invitations in the days and weeks ahead.

Thank you in advance for your help!

Don Waye

Joelle -

Attached are comments from the State of Oregon. The document is also available on Oregon DEQ's website at:
<http://www.deq.state.or.us/WQ/nonpoint/docs/CZARAsubmittal.pdf>

Please confirm that you have received the submittal. Thank you.

Karen
